EDUCATION

Swami Vivekanand Institute of Engineering and Technology (SVIET) *2024 - 2028*

Bachelor of Technology in Computer Science and Engineering
CGPA: 8.5/10

CAREER OBJECTIVE

Computer Science Engineering student interested in Artificial Intelligence, Machine Learning, Generative AI, LLMs and Edge AI, with hands-on experience building AI-powered applications, local RAG systems and software projects. Seeking opportunities to apply problem-solving, technical and analytical skills to real-world AI and data-driven systems.

PROJECTS

Engineering Hub RAG – Local Retrieval-Augmented Generation System *Individual Project*

Built a local RAG backend using Python, LangChain, Ollama and ChromaDB to index, retrieve and synthesize information from internal technical documentation.

Implemented document ingestion, chunking, local embeddings, metadata-based storage and similarity search using ChromaDB.

Developed a FastAPI layer for document ingestion, retrieval queries and streaming grounded responses, with local LLM inference through Ollama.

MediSign AI – AI Accessibility Interface *Team Leader*

Developed an AI-based accessibility interface designed to help users understand medical and official information through an accessible workflow. Worked with AI APIs and application logic for processing user input.

VitalGuard – AI-Enabled Healthcare Platform *Team Leader*

Worked on a healthcare-focused application involving structured data, authentication, APIs and application workflows, with AI and automation concepts for healthcare use cases.

TECHNICAL STRENGTHS

Languages	Java, C++, Python, JavaScript
AI / ML	RAG, LLMs, Generative AI, Edge AI, AI APIs, Keyword Spotting
AI Tools	LangChain, Ollama, ChromaDB, FastAPI
Web / Backend	React, Node.js, Express.js, REST APIs, HTML, CSS, Tailwind CSS
Database	MongoDB, MongoDB Atlas, Firebase
Tools	Git, GitHub, Unreal Engine, Android Studio, Visual Studio, Figma, Photoshop

ACADEMIC ACHIEVEMENTS

Participated in Smart India Hackathon, Ideathon, Bharat Tech and other technical competitions.

Led multiple technical project teams, including projects focused on AI, accessibility, healthcare and Edge AI.

Participated in collaborative technology projects involving Artificial Intelligence, software development and emerging technologies.

EXTRA-CIRRICULAR

Team Leader for multiple academic, hackathon and technical projects.

Taught Photoshop and Figma fundamentals to junior students.

Taught HTML and CSS fundamentals to junior students.

PERSONAL TRAITS

Strong analytical and problem-solving skills.

Good attention to detail and ability to follow technical requirements accurately.

Ability to work independently as well as collaboratively.

Strong willingness to learn new AI tools, technologies and workflows.
